Patient Portal Refusal

Date: _____

I _____ (Print Name) have been given the option of becoming web enabled through Vineville Internal Medicine to access my chart electronically through a secure server via the internet.

At this time I do not wish to have my chart enabled.

I understand by not having my chart web enabled, there may be a delay in response to medical test ordered and am willing to wait up to four days longer to receive test results. I also understand that at any time I wish to have this changed I will have to come into the office and sign stating I would like to be web enabled.
